In many countries with an overabundance of motor vehicles, bicycle lanes separate bicycle traffic from motor vehicle traffic, guiding bicycles on designated streets or paths and making their use easier. In these situations bicycles are often referred to as mopeds, motorcycles or motorbikes, depending on their speed and the area where they are

---

normally ridden. Bicycle Lane is defined as a portion of a roadway which is intended for the exclusive use of bicycles. These lanes are sometimes also referred to as “cycle tracks” or “cycle paths”. Under some jurisdictions bicycles must be driven in the bicycle lane. Under some jurisdictions, bicycles need not be driven in bicycle lanes. Bike lanes are typically

---

marked by either a white line on the road (called a “marker line”) or a strip of non-marking pavement (called a “shoulder line”). They are usually marked with a white line. It is the responsibility of the bike driver to be aware of bicycles in close proximity. If the bike driver is unable to avoid an accident it is the driver's responsibility to do everything possible to avoid

---

injury to himself or the cyclist. In the event the driver sees the cyclist and realizes the crash is imminent, the driver should apply his brakes and slow to a stop as quickly as possible. In any event, a driver must pull over and leave the road if the accident appears unavoidable. If the driver of the car chooses to disregard the obvious risk of an imminent head-on crash,

---

it is the driver's responsibility to swerve to avoid the collision. In the event the driver chooses to cross the center line to make contact with the cyclist it is the driver's responsibility to use his or her brakes as soon as reasonably possible to stop the car. In the event of swerving to avoid a collision, the driver should swerve in a careful manner and not a

---

hazardous manner or to a reckless rate of speed. If the driver elects not to swerve or apply his or her brakes, the driver must exercise due care and caution to avoid a collision and impact. In the event the driver chooses to disregard the obvious risk of a collision and impact it is the driver's responsibility to use his or her brakes as soon as reasonably possible to stop

---

the car. In the event of swerving to avoid a collision, the driver should swerve in a careful manner and not a hazardous manner or to a reckless rate of speed. If the driver elects not to swerve or apply his or her brakes, the driver must exercise due care and caution to avoid a collision and impact. Albemarle County is home to the area's only rail stations, Ballston and Mclean, providing convenient access to much of the County. These stations are located at the intersection of Route 286 and Route 123. Both stations offer free parking, elevator access, and bicycle lockers. Other services available at these

---

stations include the convenience of free parking meters and pay phones. An all-electric bicycle has a smaller engine than a motor bike but it is otherwise similar with a small electric motor attached to the rear wheel, and an electric battery pack on the front hub. This type of bicycle is often ridden for recreation and commuting. Sometimes a large flat-

---

surface moving vehicle is called a truck. This is the correct usage in most parts of the world, while its use in the United States is restricted to the livestock trade. In the United States, the term is also used to refer to a type of non-highway vehicle with a track, which is similar to a motorcycle and is sometimes considered a motorcycle. In some countries the American

---

term truck refers more specifically to a truck trailer. Do not try and ride between parked or stopped motor vehicles, nor to pass between more than one motor vehicle if there are no intervening spaces. Riders must yield to vehicles that are changing lanes within intersections except when the vehicle is making a right or left turn. Drivers must yield to cyclists

---

when coming to a stop at an intersection or when approaching a stopped bicycle from the side. Drivers have the right of way and are required to exercise that right when riding. 5ec8ef588b
